Description

Cognizant's Digital Experience Platforms Community is growing!

As a world-leading technology services company, we work with our clients to shape next generation digital products and services that meet the needs of Australians. We need a talented and experienced **Senior Front End Developers** to join our team and work with our clients to create intuitive, data-driven and technology enabled experiences for their customers and employees.

The Role:

A Senior Front End Developer in the Digital Experience Platforms Community will work closely with our clients and other engineers to develop intuitive digital products and services that meet the needs of humans. We're looking for a passionate front end developer with strong communication skills to co-create next generation digital products and services with clients and colleagues.

The successful candidate will look like;

- A minimum of 4-6 years of concurrent commercial experience developing and designing functional user interfaces for large, secure, enterprise applications

- Demonstrated strong understanding of at least one modern JS framework/library, e.g. React, Vue, Angular
- Understanding of state management (Redux)
- Experience working with APIs (REST and GraphQL)
- An understanding and passion for best practices in front-end engineering and passion for engineering fundamentals

- Excellent understanding of Agile development methodology and development practices such as BDD, TDD, Kanban, Lean, etc
- Experience writing scalable, reusable code for UI components, with tests
- Working experience, demonstrating an ability to build CI/CD pipelines plus other DevOps related concepts.

Please note that the salary range for this position is $120K-$170K base, dependent on experience.

Why join Cognizant?

Joining Cognizant will give you the opportunity to learn and collaborate with some of the most talented people in the industry, while having your finger on the pulse of emerging industry trends and working on the cutting edge of technology in your field of expertise.

We recognize that our people contribute their best when they are treated as valued contributors; which is why we are committed to providing flexible working arrangements and maintaining a diverse and professional workforce, promoting an inclusive environment.

Next steps

If you feel this opportunity suits you, or Cognizant is the type of organisation you would like to join, we want to have a conversation with you! Please apply directly with us. **#LI-TAGAPAC**
